

# The Science behind the Groningen Gas Field

*Symposium on seismicity induced by gas production from the Groningen Field*

**When:** Thursday 1 February 2018

**Where:** TUDelft, Faculty of Civil Engineering and Geosciences (CITG), Hall A

## Program

**12:00 hrs** Registration and lunch

12:45 hrs Opening and Welcome

13:00 hrs The Groningen gas field and the Dutch society – Min. EZK

13:20 hrs Geology of the Groningen Field – Rien Herber, RUG

13:50 hrs Measuring seismicity in the Groningen Field - Bernard Dost, KNMI

14:20 hrs Regulation and monitoring in Groningen – Annemarie Muntendam, SodM

**14:50 hrs** Break

15:20 hrs Hazard and Risk assessment studies, Groningen Field – Jan van Elk, NAM

15:50 hrs Induced seismicity in the Groningen Field – Further studies – Jan Dirk Jansen, TUDelft

16:20 hrs Spoken column - Manuel Sintubin, KULeuven

16:30 hrs Panel discussion: "Science meets Society – How to communicate complex issues?" a.o. Karin van Thienen-Visser (TNO), Berend Scheffers (EBN), Ipo Ritsema (Deltares/KEM)

**17:30** Drinks & networking

## Participation fee:

Members: Euro 20 (SPE, KIVI, KNGMG, PGK)

Non-members: Euro 50

Students: Euro 10

Pre-registration **obligatory** via [www.pgknet.nl/Groningen2018](http://www.pgknet.nl/Groningen2018)

Please note that there are limited seats available, 'first come first serve'
