Invitation to the EAGE Annual 2020

Dear colleagues,

One of the greatest challenges facing the industry today is delivering solutions which address energy security, energy equity and environmental sustainability - the three core dimensions of the energy transition. These three pillars form a 'trilemma', affecting individuals, industry, governments and regulators. The LAC for EAGE

2020 recognizes the challenges and believes we, as geoscientists and engineers, all have a role to play in reinforcing collective ownership and responsibility to deal with these challenges, both today and tomorrow.

Energy security includes the ongoing role for oil and gas, complemented increasingly by the diversification of cleaner renewable energy options such as geothermal. We will need to be inclusive in our approach - encompassing all energy sources, but also cognizant of all the skills, talents and digital and technical solutions that the energy transition will unlock and require.

Energy equity recognises that even though discovered resources exist, these may remain inaccessible due to technical or economic factors. From the perspective of the consumer, especially in developing economies, energy poverty remains a real concern and access to affordable energy a key challenge. How can we, as geoscientists and engineers, contribute to finding the balance for cleaner, affordable energy?

Geoscientists, geophysicists, and engineers have always interrogated our planet to unlock its secrets and to articulate the dilemmas around environmental sustainability. That hasn't changed and in 2020 we need to be able to speak passionately about the impact of our ambition for robust energy systems. These are systems which can deliver sustainable solutions in line with climate goals whilst meeting the increasing demand for energy and natural resources. This also includes energy and waste storage options like CCS, all ultimately influencing our ongoing social license to operate.

On behalf of EAGE and the Local Advisory Committee, I would like to invite you to join us at the RAI conference centre in Amsterdam for the 82nd EAGE conference and exhibition. The theme for this conference is **"Delivering for the ENERGY CHALLENGE: today and tomorrow"**

We invite you to join the leaders and professionals covering a wide spectrum of industry, academia and other organisations from across the globe in our discussions around the energy trilemma.

I look forward to seeing you in Amsterdam in 2020.

Marc Gerrits

*EAGE 2020 Amsterdam Local Advisory Committee Chair
Shell EVP Exploration*

Local Advisory Committee

Marc Gerrits	Shell
Jeroen Abels	ONE-Dyas B.V.
Annemieke van den Beukel	Shell
Greg van de Bilt	Panterra
Hans de Bresser	University of Utrecht
Marit Brommer	IGA
Serge van Gessel	EuroGeoSurveys
Lucia van Geuns	The Hague Centre for Strategic Studies
Berend Scheffers	EBN
Erik Sens	Shell
Jonathan Shearman	ExxonMobil
Ivo Vos	SGS Subsurface Consultancy
Femke Vossepoel	TU Delft

Conference & Exhibition

About the Event

The EAGE Annual 2020, the 82nd Conference & Exhibition, is the largest and most comprehensive multi-disciplinary geoscience event in the world. The event includes a large conference – in total over 1,000 technical oral and e-Poster presentations – and a technical exhibition presenting the latest developments in geophysics, geology and reservoir/petroleum engineering. More than 6,500 people from almost 100 different countries visit this event annually.

Facts

Dates	8-11 June 2020
Venue	RAI Amsterdam
Location	Amsterdam, The Netherlands
Expected attendance	6,500+
Exhibition space	17,000 m ² (gross)
Expected exhibitors	350

About Amsterdam

Amsterdam, a bustling hub of commerce that has welcomed diverse cultures with open arms, will also host the EAGE Annual in 2020. Rich in history and art, as well as a web of intertwining canals, Amsterdam is a city that brings people together, supports innovative ideas, and develops tried and true industries.

The network of universities and high-level businesses associated with Amsterdam will ensure that this annual event will confirm its position as the greatest in the world of geoscience and engineering!

Venue

This year, the event will be held at RAI Amsterdam. The venue is located nearby Amsterdam's vibrant city centre, alongside the A10 ring road and is easily accessible by car, tram, train or metro.

Technical Programme

EAGE has again included the SPE EUROPEC event to create an extensive, multidisciplinary technical programme that reflects the scientific research disciplines within EAGE. Submissions on geology are particularly encouraged to extend the focus of the traditionally strong technical programme. Should you wish to contribute to the EAGE technical programme, please refer to our website www.eageannual2020.org. A full list of topics and guidelines, the submission process and other relevant information will be available late July 2019. The call for extended abstracts will open August 2019.

Submission Deadlines

EAGE Extended Abstract Submission Deadline	15 January 2020
SPE Europec Submission Deadline	October 2019

Workshop Package, Field Trips and Short Courses

The EAGE Annual 2020 will also offer workshops, field trips and short courses scheduled before (Sunday and Monday) and after the event (Friday). For the latest information, please check us out at www.eageannual2020.org.

Exhibition and Sponsoring

This large exhibition offers a great opportunity to network and allows the visitor to learn about the latest developments in the field. Around 350 expected exhibitors will occupy around 17,000 m² of gross booth space. Companies interested in exhibiting can opt for either the booth package or space only. EAGE Annual 2020 offers excellent sponsoring opportunities to create high visibility. For more information about the exhibition and/or sponsoring please refer to the 'Exhibition & Sponsor Guide', which is available on our website, or contact us at exhibition@eage.org.

Important Dates EAGE Annual 2020

Call for Extended Abstracts Open	August 2019
Deadline for Point Priority Booth Allocation	1 September 2019
Deadline for Early Rate Exhibition Space	1 December 2019
Registration Open	1 December 2019
EAGE Extended Abstract Submission Deadline	15 January 2020
Deadline for Early Registration	15 March 2020
Deadline for Pre-registration	15 May 2020
EAGE Annual 2020	8-11 June 2020

Student Activities

The EAGE Annual 2020 offers an student activities such as the Laurie Dake Challenge 2020, a motivational speech, the Geo-Quiz, the Networking Café and more. Please refer to the EAGE website and EAGE Students on LinkedIn and Facebook for updates on the EAGE Annual 2020 Student and Young Professional Activities.

EAGE Forum Sessions

During the Annual 2020, EAGE will once again bring together leading figures working in the field of energy to tackle the most pressing issues affecting the industry. The EAGE Forum Sessions are open to all delegates to the EAGE Annual 2020, and will include debates between executive authorities in the energy and geoscience industries, as well as dedicated sessions engaging with major new trends, technological developments and shifting policies. Join the leaders of the industry as they embrace the future.

Social Programme

To complement the event, EAGE will organize a social programme that offers culture, hospitality and gastronomy in original surroundings. Entertainment for delegates and family members will be part of the programme, including an icebreaker reception, a wonderful conference evening and a family members' tour. Amsterdam is a magnificent city, with something for everyone, whether they are looking for culture, food, or shopping.

Accommodation

EAGE has an official hotel booking office for the EAGE Annual 2020. Please refer to www.eageannual2020.org to see regular updates on our accommodation services.

Contact

For more information about the event, please visit the website www.eageannual2020.org. For questions, please do not hesitate to contact us at eage@eage.org

About EAGE

The European Association of Geoscientists and Engineers (EAGE) is a global professional, not-for-profit association for geoscientists and engineers with approximately 19,000 members worldwide. Their objective is to collect and distribute technical knowledge. It provides a global network of commercial and academic professionals to all members. The association is truly multi-disciplinary and international in form and pursuits. All members of EAGE are professionally involved in (or studying) geophysics, petroleum exploration, geology, reservoir engineering, mining and mineral exploration, civil engineering, tunneling and environmental matters. EAGE's head office is located in the Netherlands with regional offices in Moscow, Dubai, Kuala Lumpur and Bogota.

EAGE organizes the following activities:

1. Conferences & Exhibitions
2. Workshops & Symposia
3. Educational Programmes
4. Student and Young Professionals Activities
5. Publications
